# Update:

In October 2019 Socatica had a successful Kickstarter campaign to produce 20 Python related videos.

They recently announced they will be writing in February and March, and filming will begin in April.

So the first few videos should be out in April with more to follow afterwards.

# Presentation:

## REST APIs

by John Sheehan

A RESTful API is an **representational state transfer (REST)** **application program interface (API)** that is commonly used to get and post data to web pages on the internet. John will be showing a video explaining the basics and then he will demonstrate this process by presenting a “Hello World” style Python demo.
