

Inland Empire Python User Group (IEPUG)

08/21/18 meeting

IEPUG intro

- who we are
- don't feel you need to stay the whole time

Sponsors:

Thanks to RiversideI/O & Excite for hosting our meetings

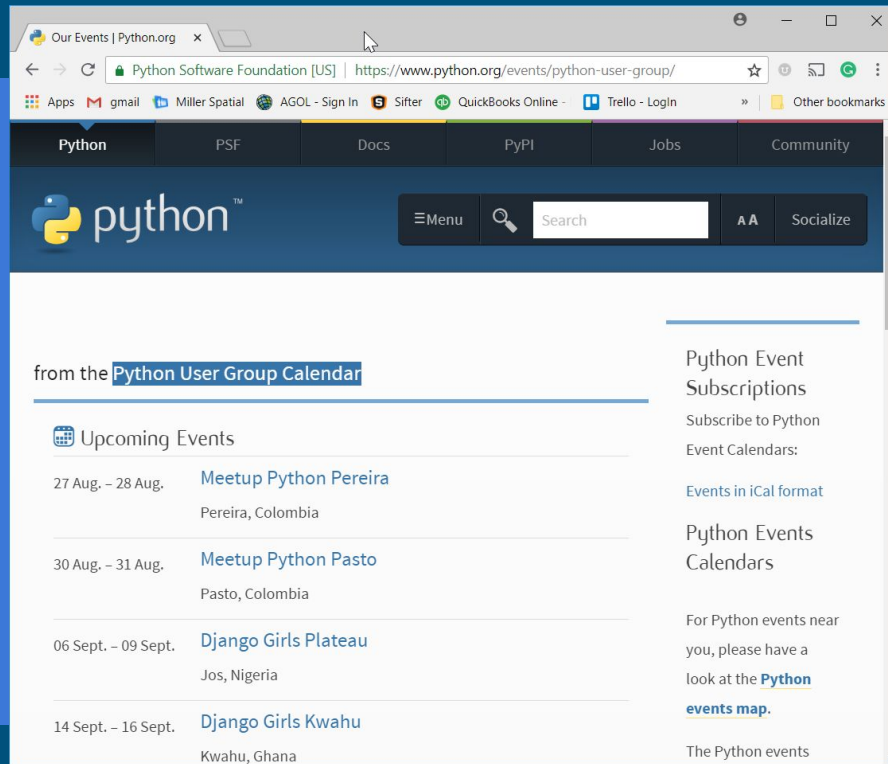

<http://www.riverside.io/en>: co-working space in downtown Riverside

<https://exciteriverside.org/>: a unique tech business acceleration program: created in collaboration between business leaders, the City and County of Riverside, and the University of California Riverside

Python User Group Calendar:

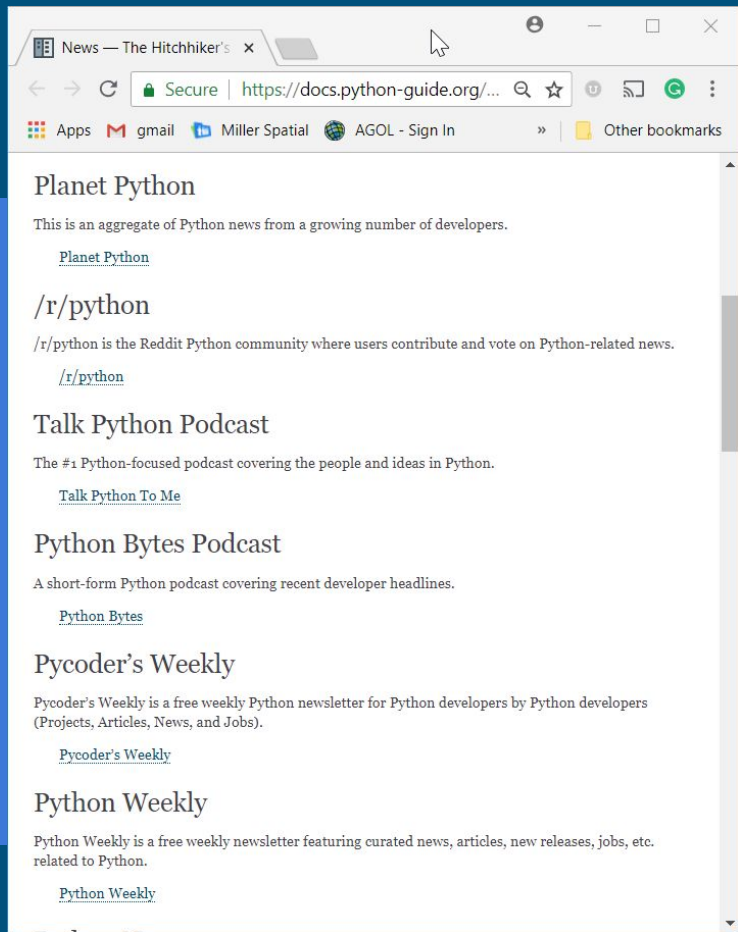

Trying to get IEPUG listed
on Python.org's User group listing

Python Podcast list:

Python version releases:

Python 3.7.0

Release Date: 2018-06-27

Python 3.7.0 is the newest major release of the Python language, and it contains many new features and optimizations

<https://www.python.org/downloads/release/python-370/>

Python 2.7.15

Release Date: 2018-05-01

Python 2.7.15 is a bugfix release in the Python 2.7 series

<https://www.python.org/downloads/release/python-2715/>

Python For Beginners

Welcome! Are you completely new to programming? If not then we presume you will be looking for information about why and how to get started with Python. Fortunately an experienced programmer in any programming language (whatever it may be) can pick up Python very quickly. It's also easy for beginners to use and learn, so jump in!

<https://www.python.org/about/gettingstarted/>

Code Shrew:

To help aspiring programmers start writing code, researchers from the Georgia Institute of Technology in the US have developed a free web-based platform called Code Shrew

<https://shrew.app/>

Pleasant programming playground paves popular Python path

https://www.theregister.co.uk/2018/08/07/code_shrew_python/

Julia: a Python replacement?

“If you are a mathematician, scientist, or engineer, you have historically had the choice to pick a language that was fast, like C++ or Java, or a language was easy to learn, like Matlab, R, or Python,” says Viral Shah, one of the creators of Julia. “In Julia, we created a language that was simultaneously fast and easy.”

Should data scientists using R and Python switch over to Julia?

<https://qz.com/1360318/is-julia-a-good-alternative-to-r-and-python-for-programmers/>

Possible Python rival? Programming language Julia is winning over developers

<https://www.zdnet.com/article/possible-python-rival-programming-language-julia-is-winning-over-developers/>

(languages in which program code is represented as the language's fundamental data type are called 'homoiconic')

Meeting notes:

Beginning Python programmers: look at June's IEPUG meetup slides:

<https://github.com/IEPUG/MeetingSlides/blob/master/IEPUG%20meeting%2020180619.pdf>

Python: tabs (?? don't remember what this note was for)

John Philip Jones python video series (<https://www.youtube.com/user/johnphilipjones>) member recommended video series

2.x and 3.x conversation:

2to3 (<https://docs.python.org/2/library/2to3.html>): a Python 2.x 3.7 program converter

Future (<https://pypi.org/project/future/>, <http://python-future.org/>): allows you to use 3.x libraries in 2.x

Meeting notes II:

Python virtual environments

VirtualEnv (<https://virtualenv.pypa.io/en/stable/>): also see June's 'Tools' meeting notes

PipENV (<https://github.com/pyenv/pyenv>)

future presentation ideas:

Jupyter

VirtualEnv

Humble Bundle (<https://www.humblebundle.com/>) watch for deals on computing book bundles
